EDUCATION

University of Washington, Seattle

Bachelor of Science in Informatics

Sep 2026 – Jun 2028 (Expected)

Seattle, WA

Indiana University, Bloomington

Bachelor of Science in Business & Informatics (GPA: 3.8/4.00)

Aug 2024 – May 2026

Bloomington, IN

EXPERIENCE

HUMN AI

Project Lead

May 2025 – Present

Remote

- Led a cross-functional engineering team and drove full-stack website architecture decisions across reliability, scalability, and cost, defining technical standards and CI/CD workflows that supported sustainable platform growth.
- Developed core marketplace functionality enabling seamless browsing of and interaction with digital human avatars, building reusable React components and REST APIs that supported onboarding of 20+ vendors and 50+ product listings.
- Integrated the Stripe payment system into a Node.js backend to power commercial transactions, subscription billing, and secure product licensing, implementing webhook-driven order fulfillment and PCI-compliant checkout flows.
- Designed a full-stack e-commerce architecture using a Next.js frontend, Node.js backend, MongoDB document store, and AWS S3 for avatar asset delivery, achieving sub-2s page load times across 50+ product pages.
- Identified cost-saving dependencies and tooling including Clerk authentication and AWS managed services, reducing projected monthly infrastructure costs by 30% while improving deployment reliability and application security.

ProfessorAI

Head of Business Operations, VP of Marketing, Project Manager

November 2023 – June 2024

Seattle, WA

- Managed a 6-member engineering and content team to deliver 32 AP courses, boosting delivery throughput with AI-assisted workflows and orchestrating LaTeX/KaTeX formatting pipelines in collaboration with the dev team.
- Spearheaded marketing campaigns and presented at EdTech conferences, securing College Board approval for AP content and producing 10+ SEO-driven videos that boosted brand visibility and partner outreach.

Kappa Theta Pi Professional Tech Fraternity

National Director of Finance & Alpha Eta Chapter VP of Finance

January 2025 – Present

Bloomington, IN

- Established the fraternity's first financial infrastructure by researching banking options, negotiating terms, and opening accounts with local IU-based banks, building a structured framework to guide future budgeting.
- Built semester budgets and structured member dues using Excel-based financial analysis to optimize cash flow, allocate resources efficiently, and support executive board decisions based on chapter strength and demand.

PROJECTS

ATLAS

Founder & Lead Developer

Jan 2025 – Present

Seattle, WA

- Architected a full-stack application using Next.js, Python, a vector database, and LLM APIs, enabling real-time document ingestion, embedding generation, and semantic search across large, unstructured corpora.
- Engineered a retrieval-augmented generation (RAG) pipeline that surfaces context-aware, source-cited insights from heterogeneous data sources, significantly reducing manual research and synthesis time for users.
- Currently developing advanced source-tracking, citation, and knowledge-graph features to expand the use case into academic literature review and professional, domain-specific research workflows.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML/CSS

Frameworks & Libraries: Next.js, React, Node.js, REST APIs

Tools & Platforms: MongoDB, Vector DB, AWS S3, Stripe, Clerk, Git, Jira, Slack, Excel, LaTeX/KaTeX

Concepts: RAG, LLM APIs, Semantic Search, Full-Stack Development, CI/CD, E-commerce Infrastructure, Data Analysis, Product Strategy, Project Management
